

Digital Photo Organization

iPhone Package

Photo Strategies for iPhone Users

Has your mobile phone become your primary camera? If so, do you wish you had better organization and procedures in place for all those photos? Is iCloud a mystery to you or are you unclear if you have it properly set up? We are here to help! Our iPhone package includes these services:

- We check all your camera and photo settings on your phone to be sure they match your goals (including optimization or not, photo file format, etc..)
- We check your iCloud settings and make sure you are using it optimally
- We show you how to use Albums and Shared Albums to better organize and share your photos
- If you also own a Mac computer, we will check your sync settings to be sure you are syncing properly with the Photos app on your Mac (if desired)
- And finally, we will share some iPhone tips and tricks that will have you saying "I had no idea I could do that"!
